Order no.: G6 1267 RCL 075

**Boom-arm wall light**  
The plug-in lamp is fastened by means of a screw terminal. Illuminant: 70W shoplight from OSRAM (very high light yield) Length of boom: approx. 800 mm Material: plastic-coated steel, RAL 9007 silver Order no.: G6 0101 000

The "silver 8" shelf system is a modular system which leaves almost nothing to be desired. Diverse tier frames are available into which watertight trays, plastic panels, and tiers for vases and buckets can be inserted. The tiered frame is specially designed so that standard commercial plant pack sizes fit onto it. Thanks to the fact that the tiers for trays and vases are only placed into the frame, they can be replaced very conveniently. So your sales shelf transforms in a few seconds to accommodate the new merchandise to be presented each day. The tiered frames can be inclined. Besides the tier frames, tiers made from wood (watertight walnut laminate with safety end strip) are also available.

The shelf is easy to arrange differently and can be extended at any time.

- Material:** polyester-coated steel tube, RAL 9007 silver
- Wooden tiers:** 19 mm in walnut décor, laminated with a safety end strip
- Steel tiers:** T-square frame to accommodate watertight trays or tiers for vases / buckets
